

Laughing All the Way: a Family Christmas Game

by TenThousandHourMama.com

Instructions:

- 1. Cut along the dotted lines to separate the cards.**
- 2. Gather your family and friends (4-8 people works best), the Laughing All the Way game cards, pens or pencils, and strips of paper.**
- 3. Everyone takes a turn being the “reader.” The reader picks a card from the face-down pile and reads it aloud. Everyone (including the reader) writes a response, plus their name, on a slip of paper then hands it to the reader.**
- 4. Once the reader has received all the responses, she or he reads them aloud.**
- 5. The person to the reader’s left guesses who wrote one response. If she or he gets it right, they get to guess again. If they get it wrong, it’s the next person to the left’s turn.**
- 6. Continue around the circle until all the responses are correctly guessed. That’s one round!**
- 7. Each correct guess earns the guesser one point.**
- 8. Take turns being the reader. You can play to 20 points, or as long as you want!**

The reindeer are on vacation. How did Santa deliver the presents?

This year I'm grateful for my family, health and _____.

On the twelfth day of Christmas, my true love gave to me:

All I want for Christmas is my two _____.
